TEENAGE MUTANT NINJA TURTLES® brand SWEETENED CEREAL

HEY!

We're totally tubular and so's our movie!

Did you know:

- Our awesome look was made by Jim Henson, the same Dude who makes all the Muppets look so cool!
- Our sewer home looks like a real New York sewer, but it's really a concrete room in underground North Carolina!
- Everything in our home really works! Even the phone! How else can we get pizza delivered?

- The set we used to film the movie looked like New Orleans before our designers turned it into New York in no time!
- The Shredder has a new, totally wicked lieutenant named Tatsu. He's one bad dude!
